Book three in the nationally best-selling Manticore Ascendant series, a prequel series to David Weber's multiple New York Times best-selling Honor Harrington series. Sequel to A Call to Duty and A Call to Arms. After the disastrous attack on the Manticoran home system by forces unknown, the Royal Manticoran Navy stands on the brink of collapse. A shadowy enemy with the resources to hurl warships across hundreds of light years seeks to conquer the Star Kingdom for reasons unknown, while forces from within Manticore's own government seek to discredit and weaken the Navy for reasons very much known: their own political gain. It's up to officers like Travis Long and Lisa Donnelly to defend the Star Kingdom and the Royal Manticoran Navy from these threats, but the challenge is greater than any they have faced before. Weakened but not defeated, the mercenary forces and their mysterious employer could return at any time, and the anti-Navy faction within Parliament is growing. The situation becomes even more dire when fresh tragedy strikes the Star Kingdom. While the House of Winton faces their enemies at home, Travis, Lisa, and the other officers of the Royal Manticoran Navy must reunite with old friends and join new allies to hunt down and eliminate the forces arrayed against them in a galaxy-spanning conspiracy. Manticore has learned that the universe is not a safe place, but the Star Kingdom's enemies are about to learn it's dangerous to mess with the Manticore!

From multiple New York Times best selling author David Weber and #1 New York Times best selling author Timothy Zahn. NEW ENTRY IN BEST-SELLING SERIES. Book #2 in the Manticore Ascendant series, set in David Weber's Honorverse. Lieutenant Travis Long of the Royal Manticoran Navy is the sort of person who likes an orderly universe. One where people follow the rules. Unfortunately, he lives in the real universe. The good news is that Travis is one of those rare people who may like rules but has a talent for thinking outside them when everything starts coming apart. That talent has stood him¾and the Star Kingdom¾in good stead in the past, and it•s one reason he•s now a _mustang,Ó an ex-enlisted man who•s been given a commission as a King•s officer. The bad news is that two of the best ways of making enemies ever invented are insisting on enforcing the rules . . . and thinking outside them when other people don•t. Travis learned that lesson the hard way as a young volunteer in basic training, and he knows that if he could just keep his head down, turn a blind eye to violations of the rules, and avoid stepping on senior officers• toes, he•d do just fine. But the one rule Travis Long absolutely can•t break is the one that says an officer in the Royal Navy does his duty, whatever the consequences. At the moment, there are powerful forces in the young Star Kingdom of Manticore•s Parliament which don•t think they need him. For that matter, they•re pretty sure they don•t need the Royal Manticoran Navy, either. After all, what does a sleepy little single-system star nation on the outer edge of the explored galaxy need with a navy? Unhappily for them, the edge of the explored galaxy can be a far more dangerous place than they think it is. They•re about to find out why they need the Navy . . . and how very, very fortunate they are that Travis Long is in it. Growing up, Travis Uriah Long yearned for order and discipline in his life . . . the two things his neglectful mother couldn•t or wouldn•t provide. So when Travis enlisted in the Royal Manticoran Navy, he thought he•d finally found the structure he•d always wanted so desperately. But life in the RMN isn•t exactly what he expected. Boot camp is rough and frustrating; his first ship assignment lax and disorderly; and with the Star Kingdom of Manticore still recovering from a devastating plague, the Navy is possibly on the edge of budgetary extinction. The Star Kingdom is a minor nation among the worlds of the Diaspora, its closest neighbors weeks or months away, with little in the way of resources. With only modest interstellar trade, no foreign contacts to speak of, a plague-ravaged economy to rebuild, and no enemies looming at the hyper limit, there are factions in Parliament who want nothing more than to scrap the Navy and shift its resources and manpower elsewhere. Book four in the nationally best-selling Manticore Ascendant series, set in the world of David Weber's multiple New York Times best-selling Honorverse series. Yesterday, the Star Kingdom of Manticore was a small, unimportant interstellar backwater. A quiet little star nation, only recently recovered from the devastating blow of the Plague Years. More affluent than some, perhaps, but with little to attract trade or interstellar commerce, it had little need for a navy . . . and even less interest in paying for one. But Manticore has now become a target. The Star Kingdom isn't certain who is attacking it, or why, or what its mysterious foe can possibly want, but Queen Elizabeth I knows she has to find out. And she knows that whatever some of her subjects think, Manticore does need a navy. And it needs allies, friends like the dynamic Republic of Haven and the Andermani Empire. It needs their trade . . . and to learn from their more experienced and powerful navies. It is the job of officers like Travis Long and his wife, Lisa, to acquire that experience. Of utterly inexperienced diplomats like Travis's brother Gavin, Earl Winterfall, to build those alliances. They have been sent to the powerful Andermani Empire to do just that, for the Imperial Navy is one of the most powerful and experienced fleets in the galaxy. But the Andermani have problems of their own. Their Emperor's death is the trigger for insurrection, and now that powerful and experienced navy is locked in civil war. The Manticoran visitors find themselves squarely in the path of the storm, and before Travis, Lisa, and Gavin can accomplish anything else, they first have to survive. About A Call to Arms: "The plotting is as solid as ever, with smaller scenes building to an explosive, action-packed crescendo, and the authors strike a nice balance between technical details of space flight and the human cost of war."—Publishers Weekly Praise for prequel A Call to Duty: "This exciting book marks the first collaboration of two powerhouses . . . fans of both writers should be quite pleased with the result.
