Total water use in Namibia was estimated at 300 million m<sup>3</sup> in 2000. The municipal sector including tourism and industry used 73 million m<sup>3</sup> (24 percent), while the bulk of water use is for agriculture and livestock. Only 13 million m<sup>3</sup> (4 percent) was used in mining at the time, although this amount has increased due to the development of mining - in particular uranium mining - after 2000.
