Why THIS alphabet book? Because reading is only 'as simple as ABC' when the alphabet is taught and learnt correctly. Would it surprise you to know that many ABC books get it wrong? Troubled by the increasing number of children struggling with reading, writing and spelling, Sue Carolane (B.App.Sc. Speech Pathology), a professional with over thirty years of practice in early childhood literacy, tackles the problem at its core: the sounds made by each letter of the alphabet. With an easy-to-follow guide for the adult coach and full colour pictures of a cheeky alpaca family to engage your child, this book ensures education AND enjoyment when learning the names and sounds of the letters of the alphabet. 'Aa is for Alpacas' gives you and your child everything you need to lay the foundations of good literacy correctly - strong from the start - allowing your child to move on with confidence to the building blocks that come next: reading and writing.

The disease of alcohol and drug addiction affects millions of people—some of whom are willing to acknowledge their addiction and therefore seek recovery. The nature of the disease is so crippling that the individual has to either find recovery or else be left with two dreadful options: physical and mental instability or death. ABC Club—End of an Era describes the history of a safe place where recovering addicts and alcoholics lived while pursuing sobriety, and it focuses on the many interactions and idiosyncrasies of each personality with interviews and other first-hand accounts. Two people operated the treatment center for over thirty-five years, Danny and Helen Leahy—a crusty, down to earth, no-nonsense man and a beautiful, soft, warm and gentle woman. The result was that these two very different people with their different personalities were able to have countless numbers of people utilize recovery and thus learn about a new way of life at the ABC Club.
