"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume II opens in the Gilded Age, before moving through the twentieth century as the country reckoned with economic crises, world wars, and social, cultural, and political upheaval at home. Bringing the narrative up to the present, The American Yawp enables students to ask their own questions about how the past informs the problems and opportunities we confront today.

Exploring American Histories opens an entirely new window into the many histories of the nation's past. It integrates an unprecedented number of primary sources—both written and visual—in a unique building blocks approach that enables students to hone their analysis skills while they actively learn the fundamental concepts of American history. By weaving sources into the story and culminating in multidocument projects around a single topic at the end of each chapter, the book brings history to life while helping students understand how sources form the basis of historical narratives and how to think critically about them. The possibilities for active learning and assessment expand with the LaunchPad e-book and course space which adds a wealth of time-saving teaching and learning tools at instructors' fingertips. LaunchPad comes with LearningCurve, an adaptive and automatically graded learning tool that students love to use and that, when assigned, ensures students come to class prepared. Easy to integrate into your campus LMS, and featuring additional primary sources, summative quizzing, videos, new autograded source-based questions, and new autograded exercises that guide students to use sources to build an argument, LaunchPad provides an easy and fun way to help students learn about American history while helping them make progress toward learning outcomes.

Highly-respected for its impeccable scholarship and elegant writing style, American History: A Survey provides students and instructors with a comprehensive account of the American past in which no single approach or theme predominates. From its first edition, this text has included a scrupulous account of American political and diplomatic history. Today, however, the book explores areas of history such as social, cultural, urban, racial and ethnic history, more history of the West and South, environmental history, and the history of women and gender. In addition, American history has not evolved in a vacuum, but as part of a larger global world. The eleventh edition of this text places American history into that global context, making connections for students who live in an ever-expanding world themselves.
