An excellent book that introduces children to the idea of metamorphosis while keeping their attention. Many people do not recognize the immature stage of the ladybug but this book treats it with humor -- when the eggs hatch, "you might think you have all made a big mistake" because of course immatures look nothing like adult ladybird beetles.A great book for primary school science.

Title: Are You A Ladybug Avenues Backyard Books Author: learncabg.ctsnet.org-Katrin Baumgartner-2020-09-28-05-53-43 Subject: Are You A Ladybug Avenues Backyard Books

Beginning with its title question, "Are you a ladybug?", this accessible book is perfect for reading aloud and tells young readers how they would experience life if they were a ladybug.

This introduction to the world of the butterfly aims to bring this familiar, small creature sympathetically to life. Young children should be fascinated by this tiny life found just outside their back door.

The repetitive question-answer style of this book and close-up photos of ladybugs will keep young children's attention.

Explores the life cycle of the ladybug and the world of insects, on spiral-bound transparent pages.

Backyard Books: Are You a Bee? by Judy Allen with illustrations by Tudor Humphries shows that--from the perspective of a honeybee--the backyard is a busy place. A young bee faces many challenges as it takes its place in the hive and joins in the work of the bee community.

Discusses the feeding and reproductive habits of ladybugs and suggests ways to raise and breed them domestically.

Backyard Books: Are You an Ant? by Judy Allen with illustrations by Tudor Humphries will give children who love to track ants an inside look at the everyday life of this fascinating insect, as they explore the similarities and differences to themselves.

Ladybugs spend part of their life cycle as larva. Every day a ladybug larva eats about 30 tiny green insects called aphids. Young children will watch a ladybug go from egg to adult.

For use in schools and libraries only. Young children will make many amazing discoveries about creatures in their own backyards in this intriguing tale of a day in the life of a grasshopper.

A NEW YORK TIMES BESTSELLER "One of the most important books of the current moment."--Time "A rousing call to action... It should be required reading for everyone."--Gabrielle Union, author of We're Going to Need More Wine "A brutally candid and unobstructed portrait of mainstream white feminism." --Ibram X. Kendi, author of How to Be an Antiracist A potent and electrifying critique of today's feminist movement announcing a fresh new voice in black feminism Today's feminist movement has a glaring blind spot, and paradoxically, it is women. Mainstream feminists rarely talk about meeting basic needs as a feminist issue, argues Mikki Kendall, but food insecurity, access to quality education, safe neighborhoods, a living wage, and medical care are all feminist issues. All too often, however, the focus is not on basic survival for the many, but on increasing privilege for the few. That feminists refuse to prioritize these issues has only exacerbated the age-old problem of both internecine discord and women who rebuff at carrying the title. Moreover, prominent white feminists broadly suffer from their own myopia with regard to how things like race, class, sexual orientation, and ability intersect with gender. How can we stand in solidarity as a movement, Kendall asks, when there is the distinct likelihood that some women are oppressing others? In her searing collection of essays, Mikki Kendall takes aim at the legitimacy of the modern feminist movement, arguing that it has chronically failed to address the needs of all but a few women. Drawing on her own experiences with hunger, violence, and hypersexualization, along with incisive commentary on politics, pop culture, the stigma of mental health, and more, Hood Feminism delivers an irrefutable indictment of a movement in flux. An unforgettable debut, Kendall has written a ferocious clarion call to all would-be feminists to live out the true mandate of the movement in thought and in deed.
