Graphic organizers have been shown to improve reading comprehension and may be applied to upper level secondary mathematics content. In two systematic replications, one randomly assigned group was taught to solve systems of linear equations through direct instruction and strategy instruction.

Covering genres from action/adventure and fantasy to horror, science fiction, and superheroes, this guide maps the vast and expanding terrain of graphic novels, describing and organizing titles as well as providing information that will help librarians to build and balance their graphic novel collections and direct patrons to read-alikes. • Introduces users to approximately 1,000 currently popular graphic novels and manga • Organizes titles by genre, subgenre, and theme to facilitate finding read-alikes • Helps librarians build and balance their graphic novel collections

Seventeen-year-old Blak, an aspiring rapper whose rhymes shape reality, struggles to cope with the violence and temptations of the street, the machinations of underworld boss Bloko, his nemesis Vulture, and fierce gang rivalries.

Lists buyers of illustrated art, interviews successful artists, and offers submission advice

Volume 1 covers core publishing industry information: book publishers; editorial services and agents; associations, events, courses and awards; and books and magazines for the trade. Volume 2 contains information on service providers and suppliers to the publishing industry, advertising, marketing and publicity; book manufacturing; sales and distribution; and services and suppliers can be found in this volume. Entries generally contain name, address, telephone and other telecommunications data, key personnel, company reportage, branch offices, brief statistics and descriptive annotations. Where applicable, Standard Address Numbers (SANs) have been included. SANs are unique numbers assigned to the addresses of publishers, wholesalers and booksellers. Publishers' entries also contain their assigned ISBN prefixes.

Originally published in French in 1967, "Semiology of Graphics" holds a significant place in the theory of information design. It presents a close study of graphic techniques including shape, orientation, color, texture, volume, and size in an array of more than 1,000 maps and diagrams.

This publication constitutes the fifth volume of National Studies on Assessing the Economic Contribution of the Copyright-Based Industries, Creative Industries Series and contains the studies carried out in China, Finland, Pakistan, Panama and Slovenia. The publication reviews the contribution of economic activities based on copyright and related rights to the creation of national value added, employment and trade in selected countries and broadens the scope of WIPO-led research on the economic aspects of copyright.
