Mastering the Nikon D850 by Darrell Young provides a wealth of experience-based information and insights for owners of the new D850 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional

camera equipment.

This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles.

Darrell's friendly and informative writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

The easy-to-read best-seller, completely updated for the latest in network technology For years, professionals have trusted IBMs redbooks to bring them practical, comprehensive information on the most recent technology. Building on this tradition of excellence, TCP/IP Tutorial and Technical Overview offers uniquely detailed coverage of all aspects of TCP/IP architecture, protocols, and product implementations. This new edition includes thorough treatments of such new technologies as multimedia, virtual private networks, differential services, and IPv6. In addition, it retains the redbooks special focus on IBM systems, with a view toward using them in heterogeneous network solutions. Like other redbooks, TCP/IP Tutorial and Technical Overview is written by a group of experts from IBMs ITSO. These practicing engineers from around the world work

hands-on with new products and systems in the development phase, giving them a wealth of practical expertise they can pass on to you. In this book, they cover such state-of-the-art topics as: * Internet security, including IPSec, VPN, firewalls and SET(191). IP mobility and dynamic IP. IP multicasting and multimedia examples. eCommerce and In

372 royalty-free, black-and-white designs, ranging from 1" x 2" to 2" x 5." Frame messages and other graphics in ads, newsletters, greetings cards, and more in such eye-catching styles as Art Nouveau, classical, Art Deco, Op Art, and calligraphic. These lovely frames will add a decorative touch to almost any project.

A much-needed contribution to the expanding interest in the history of travel and travel writing, Voyages and Visions is the first attempt to sketch a cultural history of travel from the sixteenth century to the present day. The essays address the theme of travel as a historical, literary and imaginative process, focusing on significant episodes and encounters in world history. The contributors to this collection include historians of art and of science, anthropologists, literary critics and mainstream cultural historians. Their essays encompass a challenging range of subjects, including the explorations of South America, India and Mexico; mountaineering in the Himalayas; space travel; science fiction; and American post-war travel fiction. Voyages and Visions is truly interdisciplinary, and essential reading for anyone interested in travel writing. With essays by Kasia Boddy, Michael Bravo, Peter Burke, Melissa Calaresu, Jesus Maria Carillo Castillo, Peter Hansen, Edward James, Nigel Leask, Joan-Pau Rubies and Wes Williams.

The definitive behind-the-scenes story of the visionary team that launched the handheld industry. Palm insider Andrea Butter and New York Times columnist David Pogue -- with full, exclusive cooperation

of the company's founders and more than fifty key Palm and Handspring executives -- tell the riveting tale of the start of an industry constantly in the headlines. The origins of this volatile industry began with the tiny team who beat staggering odds to turn the PalmPilot into a billion-dollar market and later took their ultimate vision to Handspring, now Palm's most powerful rival. Many of today's current events relating to the competition in this industry are forecasted in this important business drama. The authors take an unprecedented look at how the visionary founders of the industry led one of the most successful startups in history to succeed against all odds-including a shoestring budget, shortsighted corporate partners, and competition from Microsoft. The roller-coaster ride is full of insight into the bungles of venture capitalists, the allure and pitfalls of partnerships with giant corporations, and the steely determination needed to maintain entrepreneurial and visionary independence. With gripping accounts of the last-minute crises that almost torpedoed the PalmPilot on the eve of its unveiling, and the triumphant, unprecedented reception of Palm in the marketplace, as well as the glimpses into the future of this industry, this book is as entertaining as it is instructional. Key revelations include: * The principles of business, economy, and product design that led Palm to succeed where billion-dollar corporations like Apple, Motorola, and Casio had failed. * Important moments in technological development of the handheld such as the secret "Easter egg," a software surprise planted in the Palm software that nearly sank launch plans. * Unique insight into the showdown with Microsoft, and 3Com's tragic decision not to make Palm independent that led Palm's founder Jeff Hanwkins and CEO Donna Dubinsky to take their vision elsewhere. * The ongoing competition between Palm and Handspring. The new rivals to contend with including Sony.

This text describes the functions that the BIOS controls and how these relate to the hardware in a PC. It covers the CMOS and chipset set-up options found in most common modern BIOSs. It also features tables listing error codes needed to troubleshoot problems caused by the

BIOS.

Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from Walking Through Clear Water in a Pool Painted Black and other publications. Also the best of Cookie's art columns from Details magazine, and the funniest of her advice columns from the East Village Eye, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early ?80s - that moment before Bright Lights, Big City, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.
