JAX My life was simple... until Bo Brendon crashed into my lap. Shy girls aren't my thing, yet somehow, she's under my skin and in my head. It's a f\*cking nightmare. Yet it's a nightmare I don't want to give up. BOLIVIA (BO) Jax Marshall was an accident. A really sexy, smart, incredibly smooth, hot... accident. He's the kind of guy you shouldn't fall in love with, because he could crush you with barely any effort. Especially someone like me. Either it will be the best thing to ever happen to me, or it will be the disaster that leaves me in ruins. I guess I'll find out.

BELLA New life. New job. New home. New goals... I vowed to make drastic changes and to never fall back into old habits. But then Ethan Noles showed up and blew all my good intentions to hell. I should have stayed away. I shouldn't have played his game. But I did. Now I just hope I don't regret it. ETHAN Bella is the type of girl you can't help but chase, because she doesn't want to be caught. I came back ready to live and enjoy life. Not to get tethered to a girl. But... shit happens. Bella happens. And everything I thought I wanted slowly changes. \*Graphic language \*Adult content \*And yeah, there's sex. CAN BE READ AS A STAND-ALONE

When evidence of dark magic begins to appear all over Salem, Massachusetts, Elemental Witch Hannah and her ex-girlfriend Veronica are forced to team up to stop the deadly attacks.

In this gripping, romantic sequel to These Witches Don't Burn, Hannah must work alongside her new girlfriend to take down the Hunters desperate to steal her magic. Hannah Walsh just wants to finish high school. It's her senior year, so she should be focusing on classes, hanging out with her best friend, and flirting with her new girlfriend, Morgan. But it turns out surviving a murderous Witch Hunter doesn't exactly qualify as a summer vacation, and now the rest of the Hunters seem more intent on destroying her magic than ever. When Hannah learns the Hunters have gone nationwide, armed with a serum capable of taking out entire covens at once, she's desperate to help. Now, with witches across the country losing the most important thing they have—their power—Hannah could be their best shot at finally defeating the Hunters. After all, she's one of the only witches to escape a Hunter with her magic intact. Or so everyone believes. Because as good as she is at faking it, doing even the smallest bit of magic leaves her in agony. The only person who can bring her comfort, who can make her power flourish, is Morgan. But Morgan's magic is on the line, too, and if Hannah can't figure out how to save her—and the rest of the Witches--she'll lose everything she's ever known. And as the Hunters get dangerously close to their final target, will all the Witches in Salem be enough to stop an enemy determined to destroy magic for good?

DALE!m a mature and very pragmatic person, whom others like to call boring.At least I was...until Harley came back into town...What do you do when a girl comes back for some petty revenge against you and seduction is part of her game?You pretend to be a millionaire dom, of course.Yeah...it sounded better in theory. My execution keeps ending up in awkward messes, and this game between us gets even messier when I learn more about Harley. She's easy to fall for, even though she's hazardous as hell.What happens when all the games end?HARLEYOne simple little goal turns into one giant disaster.On the surface, Dale Sterling seemed like an asshole from my past; the typical arrogant guy who boulders through life and anyone in his way. So a little revenge seemed plausible, considering what he did to me once upon a long time ago. In hindsight, it was immature. But revenge has kept me on top of the world since I stopped being on the bottom of everyone's shoes, so I make no apologies for my immaturity.But Dale is weirdly kinky...Everything is going fine...until it gets real. Now the guy I wanted to humiliate is the same guy I'm begging my heart not to stupidly fall in love with.Unfortunately, my heart tends to be stubborn.\*Can be read as a stand-alone\*Sexual content\*Adult language

A newsmaking investigation into the businesses of President Trump and the people around him, showing how the American political system turned into a massive investment opportunity. By holding onto his businesses, Donald Trump launched an unprecedented experiment: What happens to a multi-billion-dollar business when its leader ascends to the presidency of the United States? And more importantly, what happens to the United States? White House, Inc. is the definitive book on money and politics in the Trump era. It examines every aspect of the president's portfolio: his exclusive clubs, D.C. hotel, overseas partnerships, commercial properties, personal mansions and private planes. It also investigates Trump associates. The president's disregard for norms set the tone at the top of the federal government, sparking a trickle-down ethics crisis with no precedent in modern American history. Trump appointed an inner circle of centimillionaires and billionaires—including Jared Kushner, Wilbur Ross and Carl Icahn—who all arrived in Washington with their own conflict-ridden portfolios. With the president as their guide, they busted through barriers meant to separate their financial holdings from their government roles. Alexander tracks hundreds of millions flowing freely between big businesses and President Trump. He explains, in plain language, how Donald Trump bought and sold the presidency. In the tradition of game-changing political expos s like Dark Money, White House, Inc. represents the most complete financial account of the Trump presidency.

Now updated with groundbreaking research, this award-winning classic examines the construction of sexual identity in biology, society, and history. Why do some people prefer heterosexual love while others fancy the same sex? Is sexual identity biologically determined or a product of convention? In this brilliant and provocative book, the acclaimed author of Myths of Gender argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced. Drawing on astonishing real-life cases and a probing analysis of centuries of scientific research, Fausto-Sterling demonstrates how scientists have historically politicized the body. In lively and impassioned prose, she breaks down three key dualisms -- sex/gender, nature/nurture, and real/constructed -- and asserts that individuals born as mixtures of male and female exist as one of five natural human variants and, as such, should not be forced to compromise their differences to fit a flawed societal definition of normality.

"Imprisoned in a remote Turkish prison camp during World War I, having survived a two-month forced march and a terrifying shootout in the desert, two British officers, Harry Jones and Cedric Hill, join forces to bamboozle their iron-fisted captors"--

In the aftermath of a small-town school shooting, lawyer Jordan McAfee finds himself defending a youth who desperately needs someone on his side, while detective Patrick Ducharme works with the primary witness--the daughter of the judge assigned to the case.

New York Times bestselling author Rachel Hawkins, writing as Erin Sterling, casts a spell with a spine-tingling romance full of wishes, witches, and hexes gone wrong. Nine years ago, Vivienne Jones nursed her broken heart like any young witch would: vodka, weepy music, bubble baths...and a curse on the horrible boyfriend. Sure, Vivi knows she shouldn't use her magic this way, but with only an "orchard hayride" scented candle on hand, she isn't worried it will cause him anything more than a bad hair day or two. That is until Rhys Penhallow, descendent of the town's ancestors, breaker of hearts, and annoyingly just as gorgeous as he always was, returns to Graves Glen, Georgia. What should be a quick trip to recharge the town's ley lines and make an appearance at the annual fall festival turns disastrously wrong. With one calamity after another striking Rhys, Vivi realizes her silly little Ex Hex may not have been so harmless after all. Suddenly, Graves Glen is under attack from murderous wind-up toys, a pissed off ghost, and a talking cat with some interesting things to say. Vivi and Rhys have to ignore their off the charts chemistry to work together to save the town and find a way to break the break-up curse before it's too late.
