The International Spy Museum's Historian takes us on a wild tour of missions and schemes that almost happened, but were ultimately deemed too

## Download Free Directed Reading B Section Moons

dangerous, expensive, ahead of their time, or even certifiably insane "Compulsively readable laugh out loud history."-Mary Roach In 1958, the U.S. Air Force nuked the moon as a show of military force. In 1967, the CIA sent live cats to spy on the Soviet government. In 1942, the British built a torpedo-proof aircraft carrier out of an iceberg. Of course, none of these things ever actually happened. But in *Nuking the Moon*, intelligence historian Vince Houghton proves that abandoned plans can be just as illuminating--and every bit as entertaining--as the ones that made it. Vividly capturing the fascinating stories of how twenty-one plans from WWII and the Cold War went from conception,

# Download Free Directed Reading B Section Moons

Answer Key

planning, and testing to cancellation, Houghton explores what happens when innovation meets desperation: For every plan as good as D-Day, there's a scheme to strap bombs to bats or dig a spy tunnel underneath the Soviet embassy. Along the way, he reveals what each one tells us about twentieth-century history, the art of spycraft, military strategy, and famous figures like JFK, Castro, and Churchill. By turns terrifying and hilarious--but always riveting--this is the unique story of history left on the drawing board.
