This study sheds light on the current state of history education in Africa and reflects on its potential to prepare this continent's learners for the challenges of "learning to live together". Drawing on an examination of school curricula and the experiences of educational stakeholders, it identifies trends in the processes and outcomes of recent curricular revisions, and discerns key challenges relating to the teaching and learning of history across Africa. It scrutinises the place afforded to history within African education systems, and surveys related contents and pedagogies. While it identifies African history as a fundamental yet sensitive and controversial subject, it also illustrates examples of present-day curricular strategies to integrating a concern for promoting a "culture of peace".

This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low- to middle-income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students, including those who may not pursue higher education.

Erstmals wird hier die Fülle der englischsprachigen Athiopienliteratur geordnet dargeboten. In 100 Sections führt der Autor alle für die wissenschaftliche Beschäftigung mit Athiopien wichtigen Buch- und Zeitschriftenbeiträge zum Beispiel zur "History of Research", "Archaeology", "Religion", aber auch Fragen der "Sociology", "Agriculture", "Zoology" und "Medical Sciences" auf. Wie im Falle der deutschsprachigen Literatur ("Bibliographia Aethiopia: Die athiopienkundliche Literatur des deutschsprachigen Raumes" = Aethiopistische Forschungen 9 [1982]) berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art "Bibliographic Encyclopedia" entstanden ist.

An ideal resource for anyone interested in learning about Ethiopia, this accessible, single-volume work provides all-encompassing and up-to-date coverage of the ancient and diverse cultures of Africa's second-most populated nation. • Presents comprehensive, current coverage of Ethiopia that includes the latest archaeological findings and socio-economic and political developments as well as previously overlooked topics such as gender, slavery, and migration • Addresses the major famines in Ethiopia in the 1980s that led to the deaths of thousands of people and served as the reason many Westerners first became aware of this African nation • Describes all of the major ethnic groups of Ethiopia, including the Afar, Amhara, Oromo, Sidamo, Somalis, and Tigray

This book, in two volumes, contains the first English translation, with introduction and annotation, of the *História da Etiópia* by the Spanish Jesuit missionary priest Pedro Páez, 1564-1622, who worked in the Portuguese missions, first in India and then in Ethiopia, long thought to be the kingdom of the legendary Prester John. Páez's learned but often polemical work is a major contribution to the political, social, cultural and religious history of Ethiopia in the sixteenth and early seventeenth centuries, and to the history of early Portuguese and Spanish missions in Africa and India, and West European attempts to come to terms with non-European cultures.
