We don't talk to a friend in the same way that we would talk to a potential future girlfriend. - How to effectively start a conversation with a woman on a dating site or Facebook and make her want to get to know you, by differentiating yourself from other men. - How to never run out of subjects to talk about, by using the storytelling technique. - How to position yourself in the emerging relationship to be and continue to be the alpha-male and to control the upcoming sequence of events. - How to make a girl want you without seeming like a pervert. To handle the art of sexualisation like a God. - How to appear mysterious and make her crazy for you in a short amount of time. - How to be light-hearted, funny and endearing by using humour. The examples will be as real as can be and modelled on real conversations. All of the extracts from discussions which will be presented to you are not made up but rewritten versions of, or strongly inspired by, my past conversations: everything is authentic (except the names used for obvious confidentiality reasons). Seduction is one of the areas of life which has the potential to bring people the most pleasure and the most pain. If people are able to effectively move through life getting what they want and need out of romance and relationships then they are sure to be spared the pain of heartbreak and loneliness. If people are unable to master this area of existence then they set themselves up for disappointment and despair. Most people stumble through life, never taking conscious control of their seductive efforts, never figuring out exactly what it is that makes some people masters of seduction, and other people permanently alone and bitter. This book entitled Dark Seduction by Michael Pace represents the pinnacle of dark seductive knowledge which has been collected, tested and understood by the seduction community. The fact that a secret society of seducers exists at all will be news to some people. This knowledge is so powerful that some governments have literally banned people from teaching it within their nation. Some of the most devastatingly effective pickup techniques of all time are detailed within these pages. They may shock and surprise readers - but they may well seduce them at the same time. What follows is a practical, psychological and philosophical exploration of the topic of seduction, conducted from a dark perspective. It aims only to uncover the truth behind the secrets of seduction and present real, tried and tested information without any spin, gloss or romantic distortion. The book is not for the faint of heart or weak of mind. It is amoral and will shock many. Proceed with caution.
