motorcycle aficionado Frank J. Bott. These amazing images is an extensive project of Franks J. Bott to document unique bikes. When he photographs his gigantic softbox wraps light around the bike accentuating its every shape and texture. He captures the details of each bike in a way the motorcycle lover will appreciate. His mastery of photography and light shows off each bike's machinery--the reader will declare they're looking at rare mechanical jewels. Each set of motorcycle portraits speaks a story about its history, customizing or restoring, engineering, its beauty, or rider experience.

If you are a rider, owner, dreamer, mechanic, a designer, a collector, and an enthusiast of motorcycles, this book is for you. -- Frank J. Bott

The process of user-centered innovation: how it can benefit both users and manufacturers and how its emergence will bring changes in business models and in public policy. Innovation is rapidly becoming democratized. Users, aided by improvements in computer and communications technology, increasingly can develop their own new products and services. These innovating users—both

Computer and firms—often freely share their innovations with others, creating user-innovation communities and a rich intellectual commons. In *Democratizing Innovation*, Eric von Hippel looks closely at this emerging system of user-centered innovation. He explains why and when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all. The trend toward democratized innovation can be seen in software and information products—most notably in the free and open-

Computer source software movement—but also in physical products. Von Hippel's many examples of user innovation in action range from surgical equipment to surfboards to software security features. He shows that product and service development is concentrated among "lead users," who are ahead on marketplace trends and whose innovations are often commercially attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom

User innovation has a positive impact on social welfare, and von Hippel proposes that government policies, including R&D subsidies and tax credits, should be realigned to eliminate biases against it. The goal of a democratized user-centered innovation system, says von Hippel, is well worth striving for. An electronic version of this book is available under a Creative Commons license.
