A "dazzling" (Bryan Washington, author of Lot) and brilliantly satirical debut novel for fans of Women Talking and Red Clocks about two best friends—a disgraced influencer and a struggling actor—who form The Atmosphere, a cult designed to reform problematic men. Sasha Marcus was once the epitome of contemporary success: an internet sensation, social media darling, and a creator of a high profile wellness brand for women. But a confrontation with an abusive troll has taken a horrifying turn, and now she's at rock bottom: canceled and doxxed online, fired from her waitress job and fortressed in her apartment while men's rights protestors rage outside. All that once glittered now condemns. Sasha confides in her oldest childhood friend, Dyson—a failed actor with a history of body issues—who hatches a plan for Sasha to restore her reputation by becoming the face of his new business venture, The Atmosphere: a rehabilitation community for men. Based in an abandoned summer camp and billed as a workshop for job training, it is actually a rigorous program designed to rid men of their toxic masculinity and heal them physically, emotionally, and socially. Sasha has little choice but to accept. But what horrors await her as the resident female leader of a crew of washed up, desperate men? And what exactly does Dyson want? Explosive and wickedly funny, this "Fight Club for the millennial generation" (Mat Johnson, author of Pym) peers straight into the dark heart of wellness and woke-ness, self-mythology and self-awareness, by asking what happens when we become addicted to the performance of ourselves.

A fun and practical new approach to wargaming that lets you complete a game in about an hour—includes rule sets and scenarios for most popular periods. One of the biggest problems facing wargamers is finding the time to actually play. Most commercially available games require several hours to set up and see to a conclusion; some can even take a whole day or weekend to complete. Apart from time, lack of space can also keep wargamers from enjoying their favorite pastime. In One-hour Wargames, veteran gamer and rule-writer Neil Thomas has addressed both problems. Now it is practical to play a satisfying game in around an hour on a normal dining table or living room floor. The book contains 8 all-new sets of very simple rules for various periods—from Ancient to WW2—and thirty stimulating scenarios which can be played using any of them. All the rules and scenarios are intended to be played on a 3ft x 3ft battlefield. The rules only require a small number of miniatures, so this really is an ideal way for new gamers, or veterans trying a new period, to get started with minimal investment of time and money. Also ideal for a quick game in the evening with a friend. Also included are sections on campaigns and solo games.

The North Koreans attack on their Southern neighbors shocked and surprised the World. The conflict rapidly escalated with China soon heavily involved on one side and the United States and United Nations on the other.The author, then a young Gunner officer, found himself in the midst of this very nasty war. He describes first hand what it was like to be at the infamous Battle of the Hook, where UN troops held off massed attacks by the Communists. Few outside the war zone realized just how horrific conditions were.As a qualified Chinese interpreter and, later, a senior military intelligence officer, Parritt is well placed to analyze why the Commonwealth got involved, the mistakes and successes and the extreme risk that the war represented.This is not only a fine memoir but a unique insight into a forgotten War.

"De Bellis Renationis" is a set of wargames rules for Renaissance battle, covering the period from 1491 AD to 1700 AD. This reprint of the 2004 version (DBR 2.0) provides both rules and army lists in a single convenient volume. (Please note this reprint is not produced by WRG Ltd).
