Seminar paper from the year 2007 in the subject English - Literature, Works, grade: 2,7, Friedrich-Alexander University Erlangen-Nuremberg (Anglistik/Amerikanistik), course: PS Mark Twain, language: English, abstract: Having the possibility to read one of Mark Twain's most controversial pieces of literature at university should not be taken for granted by students, as the novel "The Adventures of Huckleberry Finn" had been struggling for its existence in the curriculum and for its title of an American classic from the day its first English edition appeared in 1884. The historical frame around the novel provides the reader insight into the Antebellum South illustrating the limitations which American civilization imposes on individual freedom of African Americans by the time before American Civil War and furthermore attacks on the evil ways in which racism impinges upon their lives. At that point opinions about the novel's correctness arise and critics are divided into detractors and supporters, where opinions range from "racist trash" to "one of the world's greatest books".

Not only are race and racism prominent issues in the novel, but they are also dealt with in a specific manner as Huck is the narrator whose eyes everything is seen through and whose language everything is presented in the text. According to Quirk, this has the advantage that "through the satirical latitude Huck's perspective on events permitted him, Twain could deal scathingly with his several hatreds and annoyances - racial bigotry, mob violence, self-righteousness, aristocratic pretense, venality, and duplicity." Nevertheless, this narrative strategy, which differs from focalization only in its use of the past tense, has led to a controversy about whether the novel is racist, anti-racist, or both. This point will be discussed in the final section of this paper.
