IOSH Managing Safely is the market-leading health and safety course for line managers (executives, managers, supervisors and anyone with responsibility for other people). The course gives them an introduction to health and safety so that they can apply their knowledge in the workplace with confidence and enthusiasm.

IOSH Managing Safely Course Online - 100% Pass Rate - £125+VAT
Anyone can take and pass the IOSH Managing Safely course. The IOSH Managing Safely is a level 2 course, suitable for team leaders, managers and supervisors. No prior knowledge of health and safety is required, but a good standard of English is recommended.

Offers guidance for employers and self employed people in assessing risks in the workplace. This book is suitable for firms in the commercial, service and light industrial sectors.

Accidents and cases of occupational ill-health are commonly associated with aspects of human behaviour and the potential for human error. Human Factors and Behavioural Safety is not written for psychologists, but instead gives health and safety professionals and students a broad overview of human factors and those aspects of human behaviour which have a direct effect on health and safety performance within organisations. Particular attention is paid to: * the role of the organisation in promoting safe behaviour * the sensory and perceptual processes of people * behavioural factors, such as attitude, motivation and personality * the process of attitude change * theories of personal risk taking and accident * the importance of good communication, change management and stress management

Aligned directly to the NEBOSH syllabus, this book covers the breadth and depth of oil and gas operational safety. This book guides the reader through the principles of how to manage operational risks, carefully conveying a technical subject in a clear, concise manner that readers will find comfortable to read and understand. Written in full colour by a highly experienced team who have many years¶ experience within the field, this book is undoubtedly an essential tool to enhance your understanding of operational safety within the oil and gas industry.

This textbook is directly aligned to the NEBOSH National Certificate in Fire Safety and Risk Management, with each element of the syllabus explained in detail. Each chapter guides the student through the syllabus with references to legal frameworks and guidelines. Images, tables, case studies and key information are highlighted within the text to make learning more productive. Covering fire behaviour, safety, management, risk assessment, prevention and the changes to HSG65, the book can also be used as a daily reference by professionals. Written by experts in the field of fire safety Complete coverage that goes beyond the syllabus content making it a useful resource after study Illustrated throughout to enhance understanding

The Fire Safety and Risk Management Revision Guide: for the NEBOSH Fire Certificate is the perfect revision aid for students preparing to take their NEBOSH National Certificate in Fire Safety and Risk Management. As well as being a handy companion volume to the Fire Protection Association textbook Fire Safety and Risk Management: for the NEBOSH National Certificate in Fire Safety and Risk Management, it will also serve as a useful aide-mémoire for those in fire safety roles. The book: provides practical revision guidance and strategies for students; highlights the key information for each learning outcome of the current NEBOSH syllabus; gives students opportunities to test their knowledge based on NEBOSH-style questions and additional exercises; provides details of publically available guidance documents that students will be able to refer to. The revision guide is fully aligned to the current NEBOSH syllabus, providing complete coverage in bite-sized chunks, helping students to learn and memorise the most important topics. Throughout the book, the guide refers back to the Fire Safety and Risk Management textbook, helping students to consolidate their learning.

Andrew Furness and Martin Muckett give an introduction to all areas of fire safety management, including the legal framework, causes and prevention of fire and explosions, fire protection measures, fire risk assessment, and fire investigation. Fire safety is not treated as an isolated area but linked into an effective health and safety management system. Introduction to Fire Safety Management has been developed for the NEBOSH Certificate in Fire Safety and Risk Management and is also suitable for other NVQ level 3 and 4 fire safety courses. The text is highly illustrated in full colour, easy to read and supported by checklists, report forms and record sheets. This practical approach makes the book a valuable reference for health and safety professionals, fire officers, facility managers, safety reps, managers, supervisors and HR personnel in companies, as well as fire safety engineers, architects, construction managers and emergency fire services personnel. Andrew Furness CFIOSH, GIfireE, Dip2OSH, MIIRSM, MRSH, is Managing Director of Salvus Consulting Limited who specialise in Fire Safety. He was the chairman of the NEBOSH / IOSH working party that developed the NEBOSH Fire Safety and Risk Management certificate. Martin Muckett MA, MBA, CMIOSH, MIFireE, Dip2OSH, former Principal Health and Safety Advisor to The Fire Service Inspectorate and Principal Fire Safety Officer, Martin is currently Salvus Consulting Limited's Senior Fire Safety Trainer / Consultant. * Fully covers the syllabus for the NEBOSH Certificate in Fire Safety and Risk Management * Student-friendly presentation in full colour packed with illustrations and photographs * Includes a summary of legislation relevant to fire safety, ideal as a reference for students as well as practitioners

Water risks and security are a major global hazard in the 21st century and it is essential that water professionals have a solid grounding in the principles of preventative risk management. This second edition of the key textbook, Risk Management for Water and Wastewater Utilities, extends beyond first principles and examines the practicalities of resilience and vulnerability assessment, strategic risk appraisal and the interconnectedness of water utility risks in a networked infrastructure. It provides an up-dated overview of tools and techniques for risk management in the context of the heightened expectations for sound risk governance that are being made of all water and wastewater utilities. Risk Management for Water and Wastewater Utilities provides a valuable starting point for newly appointed risk managers in the utility sector and offers MSc level self-paced study with self-assessment questions and abbreviated answers, key learning points, case studies and worked examples.

These three volumes comprise the papers presented at the ESREL '97 International Conference on Safety and Reliability held in Lisbon, Portugal, 17-20 June 1997. The purpose of the annual ESREL conferences is to provide a forum for the presentation of technical and scientific papers covering both methods and applications of safety and reliability to a wide range of industrial sectors and technical disciplines and, in so doing, to enhance cross-fertilization between them. A broad view is taken of safety and reliability which includes probabilistically-based methods, or, more generally, methods that deal with the quantification of the uncertainty in the knowledge of the real world and with decision-making under this uncertainty. The areas covered include: design and product liability; availability, reliability and maintainability; assessment and management of risks to technical systems; health and the environment; and mathematical methods of reliability and statistical analysis of data. The organization of the book closely follows the sessions of the conference with each of the three volumes containing papers from two parallel sessions, comprising a total of 270 papers by authors from 35 countries.

The quick reference guide to health & safety best practice and legal issues for managers, HR and safety professionals and students.
