Playtime Is Over: The

book that is long overdue yet very much needed is finally here.

Too often many people live a life that becomes one big lie after another. I have learned by living that it's one thing to lie to other people, but it's a terrible thing to lie to yourself. For many years some people have allowed their life to

continue on in this state of "deep sleep," which is destructive not only to themselves but to others as well. This book is not to a race or creed of people, but to a type of people: To people that know that there is more to life than the things that they are seeing and doing. To people who know that there are issues and topics that

need to be talked about (yet) not many people seem to want to talk about them. To people that are so fed up with the sexual sins and perversions of these times that they just want for someone to address the topic from a real honest perspective. Well, that is what I am here to do, talk about the sexual sins and perversions that

# Download File PDF Just Like

are over running the world we live in. Healthy sexual relationships were designed to be a good thing, performed within the union of marriage between two (consenting) married adults. What we are allowing today in a lot more ways than one is for contamination to settle in. Men and

women are leaning to  
their own understanding  
and doing (by choice)  
whatever they are big  
and bad enough to do.  
Some people (not all)  
live their life in silence  
about a lot of these  
topics, because they  
don't have anyone to  
talk to about them.  
Nowhere to turn for  
real, honest  
conversations about this

issue. For the most part we spend time on the surface of these issues. Well, within the pages of this book we will go past the surface and bring some clarity in a lot more areas than not, so consider your realities and know that help is here. So, brace yourself like a woman/man because "playtime is
