Patrice Lumumba (1925-61) was one of the most famous leaders of the African Independence Movement. After his murder, he became an icon of anti-imperialist struggle, and his picture, along with those of Che Guevara and Ho Chi Minh, was brandished around the world at demonstrations in the 1960s. This second edition of the only full biography of Lumumba presents his life and quest for the Congo's liberation, which influenced how the Cold War would be fought in Africa and the nature of the independence granted to huge swaths of the globe after 1945. For those fighting for freedom, Lumumba became a

figure of resistance against the imperial colonizers of the world. Including new archival material and information gained from British intelligence, this new edition is a valuable introduction to a pivotal figure of the twentieth century.

Accessible and affordable illustrated biography about a topical historical figure - no competing title

Reveals how Patrice Lumumba, the first prime minister of the Republic of Congo, was murdered in January, 1961, directly by the Belgian government and Congolese rebels, but with the indirect help of the United States and United Nations.

Fifty years later, the murky circumstances and tragic symbolism of Patrice Lumumba's assassination trouble many people around the world. Emmanuel Gerard and Bruce Kuklick reveal a tangled web of international politics in which many people—black and white, well-meaning and ruthless, African, European, and American—bear responsibility for this crime.

biography chronicles his public accomplishments as he struggled with colonial transition, African nationalism, and pan-Africanism, and relates his personal trials. This revised edition incorporates new material on his retirement years. For general readers and students. Annotation copyrighted by Book News, Inc., Portland, OR

Barbara Kingsolver's acclaimed international bestseller tells the story of an American missionary family in the Congo during a poignant chapter in African history. It spins the tale of the fierce evangelical Baptist, Nathan Price, who takes his wife and four daughters on a missionary journey into the heart of darkness of the Belgian Congo in 1959. They carry with them to Africa all they believe they will need from home, but soon find that all of it - from garden seeds to the King James Bible - is calamitously transformed on African soil. Told from the perspective of the five women, this is a compelling exploration of African history, religion, family, and the many paths to redemption. The Poisonwood Bible was nominated for the Pulitzer Prize in 1999 and was chosen as the best reading group novel ever at the Penguin/Orange Awards. It continues to be read and adored by millions worldwide.

was the first Prime Minister of the Democratic Republic of the Congo. He was born in Kasai province of the Belgian Congo. He was educated at a missionary school and worked in Leopoldville (Kinshasa) and Stanleyville (Kisangani) as a clerk and journalist. In 1955 Lumumba became regional president of a Congolese trade union and joined the Belgian Liberal Party. He was arrested in 1957 on charges of embezzlement and imprisoned for a year. On his release he helped found the Mouvement National Congolais (MNC) in 1958. In 1959 Belgium announced a five year path to independence and in the December local elections the MNC won a convincing majority despite Lumumba being under arrest at the time. A 1960 conference in Belgium agreed to bring independence forward to June 1960 with elections in May. Lumumba and the MNC formed the first government on June 23, 1960, with Lumumba as Prime Minister and Joseph Kasavubu as President. His rule was marked by the political disruption when the province of Katanga declared independence under Moise Tshombe in June 1960 with Belgian support. Despite the arrival of United Nations troops unrest continued and Lumumba sought Soviet aid. In September Lumumba was dismissed from government by Kasavubu, an act of dubious legality. On September 14 a coup d'etat headed by Colonel Joseph Mobutu (later Mobutu Sese Seko) and supported by Kasavubu gained power. Lumumba was arrested on December 1, 1960 by troops of Mobutu. He was captured in Port Francqui

and flown to Leopoldville in handcuffs. Mobutu said Lumumba would be tried for inciting the army to rebellion and other crimes. United Nations Secretary General Dag Hammarskjold made an appeal to Kasavubu asking that Lumumba be treated according to due process of law. The USSR denounced Hammarskjold and the Western Powers as responsible for Lumumba's arrest and demanded his release. A perfect introduction to one of the most influential figures in the fields of post-colonial studies, critical theory, and Marxism.

The Catastrophist is a brilliant, highly acclaimed novel of love, passion, violence, and desire, set in the Belgian Congo in 1959. While expatriates loll about their pools in a colonial paradise soon to erupt into chaos, huge crowds are drawn to the charismatic Congolese independence leader Patrice Lumumba -- and his even more dangerous rivals. One man sees the cracks appearing around him and struggles to hold on to his lover, his sanity, and ultimately, his life. Gillespie, the outsider, a journalist, is in Léopoldville for the beautiful

Italian, Inès. He is desperate for her love, while she is obsessed with the unfolding drama, caught up in history, ideology, hero worship. In a world slipping out of control, gripped by disgust, fear, and incomprehension, Gillespie feels that events threaten to overwhelm him -- as does his friendship with the amiable but sinister American, Stipe; his relationship with his canny native driver, Auguste; and, above all, his love for Inès. It is Inès who defines Gillespie as a catastrofista, an Italian word for somebody for whom "no problem is small. Nothing can be fixed; it is always the end," for Gillespie is deeply pessimistic and skeptical about their relationship as well as politics, while Inès believes in engagement and commitment, whatever the risks -- which, as it turns out, are greater than either of them can foresee. As colonial corruption and injustice give way to turmoil, brutality, and murder, Gillespie is finally forced to confront what is happening before his eyes. In subtle, haunting prose, Ronan Bennett captures the complex connection between the personal and the political, between cruelty and lust, between eroticism and love, between courage and fear, between detachment and involvement. The Catastrophist is a bold, courageous novel, at once a searing love story and a terrifying political thriller, in the tradition of such books as Graham Greene's *The Comedians* or such postcolonial classics as *The Year of Living Dangerously* -- an erotic *Heart of Darkness* for
