Solution Manual for Management Information Systems 15th ...

A management information system is an information system used for decision-making, and for the coordination, control, analysis, and visualization of information in an organization. The study of the management information systems involves people, processes and technology in an organizational context. In a corporate setting, the ultimate goal of the use of a management information system is to increase the value and profits of the business. This is done by providing managers with timely and approp

information technologies and systems to achieve corporate objectives. Current real-world business cases illustrate how companies have identified and ultimately solved key business challenges using information systems and technologies. Through the use of Essentials of MIS, readers will be able to participate in, and even lead, management discussions of information systems for a firm. Part of a complete learning package that includes the core text and extensive supplemental online materials, the core book consists of twelve chapters with hands-on projects (including video case studies and instructional video packages) covering the most essential topics in MIS. The Twelfth Edition continues to be authoritative, but is now more customizable, flexible, and geared to meeting the needs of different instructors, with many of its learning tools now available in digital form. Also Available with MyMISLab™ This title is also available with MyMISLab, an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. NOTE: You are purchasing a standalone product; MyMISLab does not come packaged with this content. If you would like to purchase both the physical text and MyMISLab, search for:

For introductory courses in IS (information systems) and MIS (management information systems). Pearson eText is a simple-to-use, mobile-optimized, personalized reading experience that can be adopted on its own as the main course material. It lets students highlight, take notes, and review key vocabulary all in one place, even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily customize the table of contents, schedule readings and share their own notes with students so they see the connection between their eText and what they learn in class -- motivating them to keep reading, and keep learning. And, reading analytics offer insight into how students use the eText, helping educators tailor their instruction. NOTE: This ISBN is for the Pearson eText access card. For students purchasing this product from an online retailer, Pearson eText is a fully digital delivery of Pearson content and should only be purchased when required by your instructor. In addition to your purchase, you will need a course invite link, provided by your instructor, to register for and use Pearson eText.
