For all courses in maternal and child nursing care in any nursing program. This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice, and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.

Written by the foremost experts in maternity and pediatric nursing, Maternal Child Nursing Care, 5th Edition offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

This text offers complete preparation for meeting the needs of families across the continuum - from conception through adolescence. Using a consistent nursing process framework, "Maternal-Newborn and Child Nursing" provides the essential information for providing accurate, safe nursing care. Special focus is given to cultural influences, community settings, communication, nutrition, pain management, and fostering critical thinking skills essential for adapting to an ever-changing health care environment. Features include: Thinking Critically boxes that provide brief real-life scenarios. Developing Cultural Competence provides information about the potential responses of different ethnic groups to health conditions or health care interventions. As They Grow boxes illustrate the anatomic and physiologic differences in infants and children from adults. Pathophysiology Illustrated boxes illustrate the disease process. Drug Guides for selected medications commonly used in maternal-newborn and child nursing. Complementary Care presents information about commonly used alternative therapies. Growth and Development Considerations detail the different responses of children at various ages to health conditions. Comprehensive Teaching and Learning Package Student CD-ROM - Packaged FREE with each text includes an audio glossary, a step-by-step breakdown of maternity and pediatric skills, NCLEX review questions, and animations to illustrate difficult concepts. Clinical Skills Manual for Maternal-Newborn and Pediatric Nursing - serves as a portable, quick-reference to step-by-step procedures for more than 85 pediatric and maternity skills using full-color photographs and rationales. Companion Website www.prenhall.com/london - Available FREE includes modules for objectives, chapter outlines, audio glossary, NCLEX review questions, critical thinking and case studies, links to other sites for student research and essay responses, additional nursing care map activities and more. Online Course Management Systems - Ask your Prentice Hall Representative or go to www.prenhall.com/demo for more information about the online course management systems that accompany this text.

AJN Book of the Year 2009 The ENHANCED, REVISED, REPRINT of Maternal-Child Care Nursing is the same great book that won an AJN Book-of-the-Year Award... made even better with the feedback we received from instructors across the country and Canada. BONUS! The Women's Health Companion, packaged with every copy of the book, is a \$29.00 value that's absolutely FREE when you purchase the ENHANCED, REVISED, REPRINT. It's a complete guide to the role of the nurse in promoting women's health. From class to clinical through NCLEX to practice, it presents all of the information nursing students need to know and shows them how to apply it in both traditional and community settings. There are even teaching and learning resources for this content online at DavisPlus. The perfect balance of maternal and child nursing care in a new textbook conceived and written to be a combination textbook! An extensive review by nursing educators ensures that it offers just the right depth and breadth of coverage for students in today's maternity/pediatric courses. Its unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.

This highly respected book helps students develop the technical skills and broad understanding vital for effective practice while ensuring they never lose sight of the importance of compassion in their role as nurses. Presenting maternal-newborn and child health care not as two separate disciplines but as a continuum of knowledge, Maternal and Child Health Nursing, Seventh Edition views the experience of wellness and illness as family-centered events and pregnancy and childbirth as periods of wellness in a woman's life. Consistently linking theory with application to bring clinical concepts to life and using a nursing process framework to help students prepare for effective practice, this Seventh Edition adds new chapter-ending case studies, an expanded focus on culture and families, the latest QSEN content, and more. In addition, this edition is supported by PrepU's adaptive quizzing, DocuCare's educational electronic health record software, and a fully updated Study Guide.

Here's the clinical information you need at your fingertips to provide safe, effective, and compassionate care in maternity and pediatric clinical settings. Full-color images of nursing skills and procedures as well as tools and

charts make bedside reference easy.
