They're everywhere! Energy vampires have been around since humans first inhabited the earth; long before stories of blood-sucking vampires. Rather than living off the blood of people, the psy-vamp feeds off energy, leaving their victims feeling drained. Since they're unable to produce their own energy system, they connect to another person's energies in order to recharge. Almost immediately the toxic person will seem full of energy while you're left mentally, physically and emotionally depleted. The longer you're in the company of a psychic vampire, the more damage is done to your own system, sometimes leading to chronic depression, chronic fatigue, and a long list of other symptoms. As we go through this book you may see many similarities to people you know now or have in the past because they can be friends, neighbors, coworkers, family members, or even your spouse! We'll cover ways to recognize these toxic people, how to cleanse, heal, and protect yourself, and also discuss why they do it and why you're so sensitive to their effects. No longer will you be a victim. Instead, you'll be able to spot these people with ease and remain in total control of your personal power!

The Psychic Vampire Codex is the first book to examine the phenomenon and experience of modern vampirism completely from the vampire's perspective. Father Sebastiaan, a fellow vampire writes in the foreword that Michelle Belanger's system "introduced a breath of fresh air into the vampire subculture. It freed us to look at ourselves in a new light, and it also helped those outside our community to view us differently. No longer were we parasites or predators . . . we could use our inborn abilities to help people heal." Psychic vampires are people who prey on the vital, human life energies of others. They are not believed to be undead. They are mortal people whose need for energy metaphorically connects them to the life-stealing predators of vampire myth. In The Psychic Vampire Codex, Michelle Belanger, author and psychic vampire, introduces readers to the fascinating system of energy work used by vampires themselves and provides the actual codex text widely used by the vampire community for instruction in feeding and other techniques. Belanger also examines the ethics of vampirism and offers readers methods of protection from vampires. The Psychic Vampire Codex explodes all preconceptions and myths about who and what psychic vampires really are and reveals a vital and profound spiritual tradition based on balance, rebirth, and an integral relationship with the spirit world.

Highly sensitive people—or empaths—see life through the eyes of compassion and caring. They were born that way. As a result, they carry a tremendous amount of inner light. But they're also the favored prey of "vampires" who feed off empaths' energy and disrupt their lives on every level—physical, emotional, and financial.In Dodging Energy Vampires, Christiane Northrup, M.D., draws on the latest research in this exciting new field, along with stories from her global community and her own life, to explore the phenomenon of energy vampires and show us how we can spot them, dodge their tactics, and take back our own energy. You'll delve into the dynamics of vampire-empath relationships and discover how vampires use others' energy to fuel their own dysfunctional lives. Once you recognize the patterns of behavior that mark these relationships, you'll be empowered to identify the vampires in your life too.In these pages, Dr. Northrup opens up a toolbox full of techniques you can use to leave these harmful relationships behind; heal from the darkness they've cast over your mind, body, and spirit; and let your own light shine. In the end, you may find yourself healthier, happier, wealthier, and more vibrant than you ever believed possible.

When we lie awake at night listening to mysterious sounds, we imagine all the things that could be making those strange noises. The rumbling is the sound of the refrigerator; the knocking is from the old furnace; the creaking is nothing more than the house settling...isn't it? Although the modern world has denied the existence of things that go bump in the night and has taught us that the occult couldn't possibly exist, we know there are things that science has yet to explain. Defense Against the Dark introduces the reader to many of those unsavory magical creatures and occult happenings that exist outside of fairytales. Our ancestors knew these threats were real, and took precautions to protect themselves from whatever evil was lurking in the shadows. Defense Against the Dark will teach you: Common lore and mythology of predatory entities such as goblins, vampires, imps, and ghosts
How to identify malevolent spirits and understand how curses actually work
How to master different protection methods, including shielding, banishing, and hex breaking
Easy, concrete methods for protecting yourself in everyday situations
