A sharply witty novel about social ambitions and artistic pretensions by the author of Brave New World. The widowed Mrs. Aldwinkle will tell anyone who will listen of her love for art, and in a quest to surround herself with her intellectual equals, she invites an entourage to an Italian palace. One guest, who supports his poetry habit by editing a magazine for rabbit fanciers, will become the target of her amorous advances. Another guest will use the opportunity to embark on an affair in order to mine it for literary material, while yet another chases after a vulnerable heiress. A sparkling satire of the cultural elite, *Those Barren Leaves* is as entertaining and relevant today as when it was originally published. "Extremely clever, with the brilliance we have come to associate with this author." -The New York Times

*Those Barren Leaves* is a satirical novel by Aldous Huxley, published in 1925. The title is derived from the poem "The Tables Turned" by William Wordsworth which ends with the words: Enough of Science and of Art; Close up those barren leaves; Come forth, and bring with you a heart That watches and receives. Stripping the pretensions of those who claim a spot among the cultural elite, it is the story of Mrs. Aldwinkle and her entourage, who are gathered in an Italian palace to relive the glories of the Renaissance. For all their supposed sophistication, they are nothing but sad and superficial individuals in the final analysis. (wikipedia.org)

Aldous Huxley spares no one in his ironic, piercing portrayal of a group gathered in an Italian palace by the socially ambitious and self-professed lover of art, Mrs. Aldwinkle. Here, Mrs. Aldwinkle yearns to recapture the glories of the Italian Renaissance, but her guests ultimately fail to fulfill her naive expectations. Among her entourage are: a suffering poet and reluctant editor of the "Rabbit Fanciers' Gazette" who silently bears the widowed Mrs. Aldwinkle's desperate advances; a popular novelist who records every detail of her affair with another guest, the amorous Calamy, for future literary endeavors; and an aging sensualist philosopher who pursues a wealthy yet mentally-disabled heiress. Stripping the houseguests of their pretensions, Huxley reveals the superficiality of the cultural elite. Deliciously satirical, *Those Barren Leaves* bites the hands of those who dare to posture or feign sophistication and is as comically fresh today as when first published

Seminar paper from the year 2001 in the subject English Language and Literature Studies - Literature, grade: 1,3, Free University of Berlin, 12 entries in the bibliography, language: English, abstract: Travel is multi-faceted, and yet, in the sense of changing the place, it seems to be one of the most basic actions. In many novels, incorporating travel provides the author with the valuable chance to confront the main character with very disparate figures, environments and cultures. In this case, traveling is an action that motivates action, it is auxiliary. It motivates action by making randomness legitimate - for traveling means to subordinate oneself to unknown future events. Journeys are necessarily open and can never be planned completely, as Englishmen's accounts even of the Grand Tour, a very standardized form of travel, prove. Also other literary genres besides the travelogue, such the German Entwicklungsroman, can hardly be explained without reference to this aspect of traveling. Literary journeys often parallel outer and inner movement of the character. (Korte 10) One need not go as far as to Georg B\u00fchner's Lenz to give proof of this; Calamy's retreat to the mountains at the end of Aldous Huxley's third novel *Those Barren Leaves* (1925), the central work of this paper, also tries to connect landscape and mind. Yet, traveling becomes thematic above all in the fourth of the novel's five parts. Its title "The Journey" signals it. The aim of this paper is to analyze and interpret Huxley's novel.
