"NinaSankovitch has crafted a dazzling memoir that remindsus of the most primal function of literature—to heal, to nurture and to connectus to our truest selves." —Thryt Umrigar, author of The Space Between Us Catalyzedby the loss of her sister, a mother of four spends one year savoring a greatbook every day, from Thomas Pynchon to Nora Ephron and beyond. In the tradition ofGretchen Rubin’s The Happiness Project and Joan Dideon’sA Year of Magical Thinking, Nina Sankovitch’ssoul-baring and literary-minded memoir is a chronicle of loss,hope, and redemption. Nina ultimately turns to reading as therapy andthrough her Journey illuminates the power of books to help us reclaim ourlives.

In this dramatic adaptation of her award-winning, bestselling memoir, Joan Didion transforms the story of the sudden and unexpected loss of her husband and their only daughter into a stunning and powerful one-woman play. “This happened on December 30, 2003. That may seem a while ago but it won't when it happens to you . . .” Michiko Kakutani in The New York Times called the memoir that was the basis for the play, “an indelible portrait of loss and grief . . . a haunting portrait of a four-decade-long marriage.” The first theatrical production of The Year of Magical Thinking opened at the Booth Theatre on March 29, 2007, starring Vanessa Redgrave and directed by David Hare.

The author of the much-admired Tolstoy and the Purple Chair goes on a quest through the history of letters and her own personal correspondence to discover and celebrate what is special about the handwritten letter. Hailed as witty, moving, enlightening, and inspiring, Signed, Sealed, Delivered begins with Nina Sankovitch’s discovery of a trove of hundred year-old letters. The letters are in an old steamer trunk she finds in her backyard and include missives written by a Princeton freshman to his mother in the early 1900s. Nina’s own son is heading off to Harvard, and she hopes that he will write to her, as the Princeton student wrote to his mother and as Nina wrote to hers. But times have changed. Before Nina can persuade her child of the value of letters, she must first understand for herself exactly what it is about letters that make them so significant—and just why she wants to receive them. Sankovitch sets off on a quest through the history of letter writing—from the ancient Egyptians to the medieval lovers Abelard and Heloise, from the letters received by President Lincoln after his son’s death to the correspondence of Edith Wharton and Henry James. Sankovitch uncovers and defines the specific qualities that make letters so special, examining not only historical letters but also the letters in epistolary novels, her husband’s love letters, and dozens more sources, including her son’s brief reports from college on the weather and his allowance. In this beautifully written book, Nina Sankovitch reminds us that letters offer proof and legacy of what is most important in life: love and connection. In the end, she finds, the letters we write are even more important than the ones we wait for.

Nina Sankovitch’s American Rebels explores, for the first time, the intertwined lives of the Hancock, Quincy, and Adams families, and the role each person played in sparking the American Revolution. Before they were central figures in American history, John Hancock, John Adams, Josiah Quincy Junior, Abigail Smith Adams, and Dorothy Quincy Hancock had forged intimate connections during their childhood in Braintree, Massachusetts. Raised as loyal British subjects who quickly saw the need to rebel, their collaborations against the Crown and Parliament were formed years before the revolution and became stronger during the period of rising taxes and increasing British troop presence in Boston. Together, the families witnessed the horrors of the Boston Massacre, the Battles of Lexington and Concord, and Bunker Hill; the trials and tribulations of the Siege of Boston; meetings of the Continental Congress; transatlantic missions for peace and their abysmal failures; and the final steps that led to the signing of the Declaration of Independence. American Rebels explores how the desire for independence cut across class lines, binding people together as well as dividing them—rebels versus loyalists—as they pursued commonly-held goals of opportunity, liberty, and stability. Nina Sankovitch’s new book is a fresh history of our revolution that makes readers look more closely at Massachusetts and the small town of Braintree when they think about the story of America’s early years.

Nina Sankovitch has always been a reader. As a child, she discovered that a trip to the local bookmobile with her sisters was more exhilarating than a ride at the carnival. Books were the glue that held her immigrant family together. When Nina’s eldest sister died at the age of forty-six, Nina turned to books for comfort, escape, and introspection. In her beloved purple chair, she rediscovered the magic of such writers as Toni Morrison, Nathaniel Hawthorne, Ian McEwan, Edith Wharton, and, of course, Leo Tolstoy. Through the connections Nina made with books and authors (and even other readers), her life changed profoundly, and in unexpected ways. Reading, it turns out, can be the ultimate therapy. Tolstoy and the Purple Chair also tells the story of the Sankovitch family: Nina’s father, who barely escaped death in Belarus during World War II; her four rambunctious children, who offer up their own book recommendations while helping out with the cooking and cleaning; and Anne-Marie, her oldest sister and idol, with whom Nina shared the pleasure of books, even in her last moments of life. In our lightning-paced culture that encourages us to seek more, bigger, and better things, Nina’s daring journey shows how we can deepen the quality of our everyday lives—if we only find the time.

Chronicles the efforts of the author and her husband to open and run a small bookstore in a struggling Virginia coal mining community, a pursuit challenged by the difficult economic environment, widespread transitions away from hard-copy books and numerous eccentric patrons. 30,000 first printing.

The Lowells of Massachusetts were a remarkable family. They were settlers in the New World in the 1600s, revolutionaries creating a new nation in the 1700s, merchants and manufacturers building prosperity in the 1800s, and scientists and artists flourishing in the 1900s. For the first time, Nina Sankovitch tells the story of this fascinating and powerful dynasty in The Lowells of Massachusetts. Though not without scoundrels and certainly no strangers to controversy , the family boasted some of the most astonishing individuals in America’s history: Percival Lowle, the patriarch who arrived in America in the seventeenth to plant the roots of the family tree; Reverend John Lowell, the preacher; Judge John Lowell, a member of the Continental Congress; Francis Cabot Lowell, manufacturer and, some say, founder of the Industrial Revolution in the US; James Russell Lowell, American Romantic poet; Lawrence Lowell, one of Harvard’s longest-serving and most controversial presidents; and Amy Lowell, the twentieth century poet who lived openly in a Boston Marriage with the actress Ads Dwyer Russell. The Lowells realized the promise of America as the land of opportunity by uniting Puritan values of hard work, community service, and individual responsibility with a deep-seated optimism that became a well-known family trait. Long before the Kennedys put their stamp on Massachusetts, the Lowells claimed the bedrock.

The heartwarming, true story of a young woman whose single father—an elementary school librarian--read aloud to her every night, starting from when she was in 4th grade until the day she left for college. When Alice Ozma was in 4th grade, she and her father decided to see if he could read aloud to her for 100 consecutive nights. On the hundreth night, they shared pancakes to celebrate, but it soon became evident that neither wanted to let go of their storytelling ritual. So they decided to continue what they called “The Streak.” Alice’s father read aloud to her every night without fail until the day she left for college. meta content="Word.Document" name="ProgId" meta content="Microsoft Word 12" name="Generator" meta content="Microsoft Word 12" name="Originator"link href="file:///C:/DOCUME~1/englanda/LOCALS~1/Temp/msohtmlclip1\01\clip_filelist.xml" rel="File-List"link href="file:///C:/DOCUME~1/englanda/LOCALS~1/Temp/msohtmlclip1\01\clip_themedata.thmx" rel="themeData"link href="file:///C:/DOCUME~1/englanda/LOCALS~1/Temp/msohtmlclip1\01\clip_colorschememapping.xml" rel="colorSchemeMapping" Alice approaches her book as a series of vignettes about her relationship with her father and the life lessons learned from the books he read to her. Books included in the Streak were: Great Expectations by Charles Dickens, the Oz books by L. Frank Baum, Harry Potter by J. K. Rowling, Alice’s Adventures in Wonderland by Lewis Carroll, and Shakespeare’s plays.

A smart, hilarious parody of Malcolm Gladwell’s bestselling Blink. Stop! Don’t think! You already know what this book is about. That is the power of Blank: the power of not actually thinking at all. Using what scientific researchers call ‘Extra-Lean Deli Slicing’ (or would, if they actually bothered to research it), your brain has already decided whether you’re going to like Blank, whether its cover goes with your shirt, and whether it will make you look smart if somebody sees you reading it on the train. Chances are you and your shirt are both liking it a lot, you’re going to buy several copies, and you don’t even know why! That’s why you’ve absolutely got to read Blank: to find out why your brain keeps doing these wacky things without your permission. In Blank, a hilarious parody of the No. 1 bestseller it looks eerily like (and sort of rhymes with) and that your brain wisely advised you to just read a review or magazine excerpt about while avoiding the actual book itself, the brilliantly impulsive and slightly irresponsible Noah Tail explains how people as diverse as General Custer, Roy Rogers, a semi-famous rock star, and the entire New York City Police Department either won big or lost miserably as a result of their minds going completely blank.

A San Francisco Chronicle Best Book of the Year Recommended Summer Reading -- Louise Erdrich, New York Times “Gisleson writes with wit, warmth, and a spiritual devotion to books...Her search for purpose and connection amid chaos and loss permeates even the most heart-wrenching moments of The Futillitarians--and it’s what turns the book from a meditation on reading to a celebration of being.” --Jason Heller, NPR Anne Gisleson had lost her twin sisters, been forced to flee her home during hurricane Katrina, and watched cancer take the life of her beloved father. Before she met her husband, Brad, he had suffered his own trauma. Losing his partner and the mother of his son to cancer in her early thirties. “How do we keep moving forward,” Anne asks, “amid all this loss and threat?” The answer: “We do it together.” While forging their happiness, Anne and Brad found that their friends had been suffering their own crises: loved ones gone, rocky marriages, jobs lost or gained. Together they formed what they called the Existential Crisis Reading Group, jokingly dubbed “the Futillitarians.” From Epicurus to Tolstoy, from Cheever to Ams, they read and talked about the questions that dogged them most. In the year after her father’s death, these living-room gatherings in post-Katrina New Orleans helped Anne blaze a trail out of her well-worn grief and finally share the untold story of her family. Written with wisdom, soul, and a playful sense of humor, The Futillitarians is a guide to living curiously and fully.
