The book explores the tensions between two fundamentally competing demands made of IP law.

What is the future of television? Do social media and big data threaten privacy rights? Do children have too much access to violent media content? Is reporting on global conflict worth the risk? These questions—and many more—are at the heart of today's media landscape. Written by award-winning CQ Researcher journalists, this collection of non-partisan reports focuses on fifteen hot-button issues impacting the media. With reports ranging from the fight over net neutrality to social media and politics, Issues in Media promotes in-depth discussion, facilitates further research, and helps readers formulate their own positions on crucial issues. And because it's CQ Researcher, the reports are expertly researched and written, presenting readers with all sides of an issue. Key Features: Chapters follow a consistent organization, beginning with a summary of the issue, then exploring a number of key questions around the issue, next offering background to put the issue into current context, and concluding with a look ahead. A pro/con debate box in every chapter offer readers the opportunity to critically analyze and discuss the issues by exploring a debate between two experts in the field. All issues include a chronology, a bibliography, photos, charts, and figures to offer readers a more complete picture of the issue at hand.

#1 NEW YORK TIMES BESTSELLER - OPRAH'S BOOK CLUB PICK - LONGLISTED FOR THE NATIONAL BOOK AWARD - "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."--Dwight Garner, The New York Times The Pulitzer Prize-winning, bestselling author of The Warmth of Other Suns examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power--which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people--including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others--she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, Caste: The Origins of Our Discontents is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.
