Soma: The soma (cell body) is the central mass of the neuron and contains the cell's nucleus.The nucleus contains the neuron's DNA and is the site of RNA transcription and translation which produce proteins necessary for the neuron to function properly. The neuron transports proteins from the soma to the axon and dendrites via the activity of microtubule-associated motor proteins.

A text book on Biology

Concise and accurate treatment of the subject matter. Comparative tables to highlight the differences between important terms. Profusely illustrated with examples and well-labelled diagrams. All the chapters contain new material as per the latest syllabus.

Some of the key benefits of studying from Oswaal Solved Papers are: • Strictly based on the latest CISCE Curriculum issued for Academic Year 2020-2021 • Board Questions for in depth study • Answering Tips and Examiner's Comments • Answers strictly as per the ICSE Marking Scheme • All Typology of Questions included for exam-oriented study • Revision Notes for comprehensive study • 'Mind Maps' in each chapter for making learning simple. • Suggested videos at the end of each chapter for a Digital Learning Experience

• Engage- Introduceinteresting content enabling better assimilation of concepts • Explore- Provide meaningful insights into various typologies and methodologies for effective exam preparation • Explain- Give better clarification for concepts and theories • Elaborate- Complement studying with ample examples and Oswaal exam tools • Evaluate- Conclude with Effective self assessment tools

Oswaal Books latest offering ONE for ALL is going to break down the actual studying strategies for success and empower the students with the 5 E's of Learning-.Engage- Introduce interesting content enabling better assimilation of concepts. Explore- Provide meaningful insights into various typologies and methodologies for effective exam preparation. Explain- Give better clarification for concepts and theories. It recognizes the need of students to not only get exam oriented study material for success but also to save time and energy by having all the content in one place, thus an All in One package for Class 9

When K–5 students understand how to read text features like bullets, insets, and bold print, they are reading the whole page—essential for deep comprehension of nonfiction and fiction text. In this revised edition, seasoned educators Michelle Kelley and Nicki Clausen-Grace show you how to explicitly teach K–5 students to read text features, use them to navigate text, and include them in their own writing. Sixty mini-lessons for teaching print, graphic, and organizational features provide ample choices for meeting the standards while adapting to students' needs. The lessons, which follow the gradual release of responsibility model and increase in difficulty, can be used within the typical 90-minute reading block, during content-area instruction, in small groups, and as part of independent practice opportunities. Each lesson offers concept review, suggestions for differentiation, assessment options, and technology connections, requiring students to find, explore, manipulate, and create text features in their own writing. Also included are Thinksheets, visual examples of each text feature, rubrics, the assessment picture book, and readers' theatre scripts that can be downloaded for use. Many of these important resources and convenient lesson supports can be filled out directly on the computer.
