The 2014-2018 Ford Focus is the facelifted Mk3 model and comes with 1.0 litre Ecoboost as well as 1.6 litre petrol engines. Diesel options initially included a new 1.5 litre diesel and 1.6 diesel, which was carried over from the pre-facelifted car. As well as the 1.5 diesel, the facelift gave the Focus a cleaner look at the front and rear.

### Ford Focus routine maintenance guide (2014 to 2018 petrol ...

Your timing belt should be replaced every 50,000-70,000 miles, depending on your car's make and model. Also, make sure you understand if your engine is an interference engine or a non-interference engine. In an interference engine, the valves and piston share the same airspace and

the timing belt keeps them from touching. This is why you'll have a major engine failure on your hands if the belt breaks or skips.

### **How to Know When to Replace Your Timing Belt**

Renew the timing belt and tensioner - 1.4 and 1.6 litre engines only Note: The Ford interval for belt renewal is actually at a much higher mileage than this (100 000 miles or 8 years). It is strongly recommended, however, that the interval is reduced to 60 000 miles, particularly on vehicles which are subjected to intensive use, ie, mainly ...
