The Red Line (50304) MT-90 75W-90 GL-4 Manual Transmission Fluid has a distinct formula that's low in sulfur making it compatible with synchronizers made of brass. It's very useful in performance applications, and it also improves the cold shifting of vehicles. All these features make it one of the more popular products available.

If you notice your shifting feels less smooth as it used to you then you may be in need of new transmission fluid. The owner's manual recommends changing the transmission fluid every 120,000 miles or every 8 years, whichever comes first. Under severe conditions the interval is every 60,000 miles or every 4 years.

Users of Genuine Honda ATF-Z1 have found this fluid to turn dark brown and emit a "burnt" odor

## Where To Download Honda Manual Transmission Fluid Color

within a very short period of time, often in 30,000 miles or less, especially in the V6 applications. As I have previously suspected, the Genuine Honda ATF-Z1's appearance of discoloration and "burnt" smell does not necessarily indicate that the fluid is no longer serviceable, as indicated by this bulletin from an A/T Replacement and Diagnostics bulletin.
