## **Difference Between TIG and MIG welding**

# Download Ebook Lab Manual Tig And Mig Welding | **The Engineers Post**

Weld purging is most often used in Metal Inert Gas (MIG) welding and Tungsten Inert Gas (TIG) welding, also known as Gas Tungsten Arc welding (GTAW). While both MIG and TIG welding use an electric arc to create the weld, MIG is more common because it can be used on steel, stainless steel and aluminum of almost any thickness.
